

No be Joke

P-Square

No joke no joke
ohhhh yeah
baby
baby can i get your number
I really wanna to talk to you, you
My baby i can take you under
Or maybe i can take you to the moon
Cause i love what you do
when you do it to yourself
baby do you need my help
and when we do, what we do
No be ordinary love
Baby may you take my hands

To the moon moooooooooon
baby hold me tied
Am in the mood moooooood
This no be joke
every little thing i do
promise to love you
This no be joke
every little thing i do
promise to love you
This no be joke
every little thing i do
promise to love you
This no be joke
every little thing i do
promise to love you

I've been seaching, seaching for true love
Girl won't you bring it on my way
What can i do, what can i say
We don't need no space
Cuz i love it when you do it
how you do it to yourself
Baby do you need my help
And when we do what we do
No be ordinary love
baby may you take my hands

To the moon moooooooooon
baby hold me tied
Am in the mood moooooood
This no be joke
every little thing i do
promise to love you
This no be joke
every little thing i do
promise to love you
This no be joke
every little thing i do
promise to love you
This no be joke
every little thing i do
promise to love you

No joke no joke
oooooh yeah ooooooh yea
