

Atlanta June

Pablo Cruise

Come here baby, and sit down with me
I've got something on my mind I've just got to make you see
Its been working at my heart, for far too long
And I've to tell you how I feel,
Cause I know I'll soon be gone

Atlanta, Atlanta June.
I'm leaving you and all too soon
But someday, maybe I'll find a way, back to you
Atlanta June

Now I've been unlucky with love before
But the time we've spent together,
Has got me one more
So for now, lets not think of us apart
Let's just keep this memory forever in each others hearts

Atlanta, Atlanta June.
I'm leaving you and all too soon
But someday, maybe I'll find a way, back to you
Atlanta June
