So far deep to forget it
And I promise you won't regret it
If you were my, my girl
I've been waiting for you ever
Finally we get together
Now you're my, my girl
And you're my, my girl
You can be my, my girl
You be my, my girl
You be my, my girl

So far deep to forget it
And I promise you won't regret it
If you were my, my girl
I've been waiting for you ever
Finally we get together
You can be my girl
You can be my girl
