

## Aerolites

### Paddy and the Rats

When moon was out  
We're runnin' with no shoes on  
Abandoned we shout  
Naked 'til morning sun  
Oooh, that was when we were young  
Oooh, that was when we were young

We stole fancy cars  
We drove them fast just for fun  
We fought with the cops  
We laughed at the loaded gun  
Oooh, that was when we were young  
Oooh, that was when we were young

We've lived our lives  
Like there's no tomorrow  
We were the ones to follow all night  
Yeah, We've loved our lives  
With all joy and sorrow  
We were burning aerolites

When we were getting high  
We've wrote shattered hymns unsung  
Everything we've tried  
Just not how to get so drunk  
Oooh, that was when we were young  
Oooh, that was when we were young

We wanted the world  
It's half, it was not enough  
In the end all we've learned  
One flash, will keep us tough  
Oooh, that was when we were young  
Oooh, that was when we were young

We've lived our lives  
Like there's no tomorrow  
We were the ones to follow all night  
Yeah, We've loved our lives  
With all joy and sorrow  
We were burning aerolites

When moon was out  
We're runnin' with no shoes on  
Abandoned we shout  
Naked 'til morning sun  
Oooh, that was when we were young  
Oooh, that was when we were young

We've lived our lives  
Like there's no tomorrow  
We were the ones to follow all night  
Yeah, We've loved our lives  
With all joy and sorrow  
We were burning aerolites

We've lived our lives

Like there's no tomorrow  
We were the ones to follow all night  
Yeah, We've loved our lives  
With all joy and sorrow  
We were burning aerolites
