

After the Rain

Paddy and the Rats

1. I've stopped to walk
Just forgot where I'm going
I only want to talk
To you, just once again

At the end of the road
I've only found my shadow
So after all
I say myself a hello

I shake my lonely hand
Beneath the cloudy night sky
Silence is my friend
No more stories to be told

The home once I had
Will slip away tomorrow
My footsteps in the sand
I could never follow

And over the misty mountain
So far away
All the questions will be gone when
I find a way

Ref:
I'm still alive
Cover myself with sorrow
And all through my life
I'm married with the Pain

So I dive in my vine
to fill my deepest hollow
But after the rain
Sunshine will never be the same

2. I've tried to bury deep
All the numbing memories
But it's hard to keep
Myself away from guilt

Clouds are hanging low
I try to rise above it
But I forgot a long ago
How to fall in love

And over the misty mountain
So far away
All the questions will be gone when
I find a way

Ref:
I'm still alive
Cover myself with sorrow
And all through my life
I'm married with the Pain

So I dive in my vine
to fill my deepest hollow
But after the rain
Sunshine will never be the same

And over the misty mountain
So far away
All the questions will be gone when
I find a way

Ref:
I'm still alive
Cover myself with sorrow
And all through my life
I'm married with the Pain

So I dive in my vine
to fill my deepest hollow
But after the rain
Sunshine will never be the same (x2)
