

# Keep The Devil Down In The Hole

Paddy and the Rats

Break on through the night  
In my heart I buried the light  
Cry for you to save me  
From the man that I've become

And after all the bridges're burned  
I feel there's still nothing I've learned  
Only guilt is left here  
And again I'm on the run

And I want to get old now  
So I try to keep the devil  
down in the hole  
And I take back my soul now  
And I want it right now

I feel it burnin' in my veins  
But I pour again  
Need someone to pull on the reins  
In the pouring rain  
You want my drinking problems solved  
But now I can't  
Only my worried thoughts revolve  
Just let me drinking

My desires are the chiefs  
I don't have the nerve  
to chain these beasts  
These monsters need to be fed up  
Or they demand my soul

My disciples are the slaves  
I feel they never were that brave  
It's all marching to the chaos  
I don't know who'll win this war

And I want to get old now  
So I try to keep the devil  
down in the hole  
And I take back my soul now  
And I want it right now

I feel it burnin' in my veins  
But I pour again  
Need someone to pull on the reins  
In the pouring rain  
You want my drinking problems solved  
But now I can't  
Only my worried thoughts revolve  
Just let me drinking

Let me drink  
Let me drink  
Let me drink

And I want to get old now  
So I try to keep the devil

down in the hole  
And I take back my soul now  
And I want it right now

I feel it burnin' in my veins  
But I pour again  
Need someone to pull on the reins  
In the pouring rain  
You want my drinking problems solved  
But now I can't  
Only my worried thoughts revolve  
Just let me drinking
