

Sail Away

Paddy and the Rats

Oh me boys, we drink too much
We sail far away where the angles laugh
We break trough the night, grab a longneck, hurray!
We're the kings of the night, girls it's time to play!

We drink too much
We sail far away where the angles laugh
We break trough the night, grab a longneck, hurray!
We're the kings of the night, girls it's time to play!

Thin Lizzy Borden, she's my ray of light
Caribbean rum made her outlook seem so bright
Spent a night or two between those white and meaty legs
Wish I could be strong enough to hold her heavy breasts!

Sally from the brothel, she stole my heart that night
Smiling like an angel and the blow job quite alright
All her other clients are jealous of me now,
Coz she wants to merry me that makes me proud

Oh me boys, we drink too much
We sail far away where the angles laugh
We break trough the night, grab a longneck, hurray!
We're the kings of the night, girls it's time to play!

Barbados the place where long-leg Penny lives
Never seen a body shape that almost kills
When her gifted tongue starts moving on my spine
Makes me forget Sally and just drives me wild

Oh me boys, we drink too much
We sail far away where the angles laugh
We break trough the night, grab a longneck, hurray!
We're the kings of the night, girls it's time to play!

Sail away, sail away my love
I've already stayed too long
Sail away, sail away my love
You know, you'll always be in my heart

Oh me boys, we drink too much
We sail far away where the angles laugh
We break trough the night, grab a longneck, hurray!
We're the kings of the night, girls it's time to play!

Sail away, sail away my love
I've already stayed too long
Sail away, sail away my love
You know, you'll always be

Sail away, sail away my love
I've already stayed too long
Sail away, sail away my love
You know, you'll always be in my heart
