

That's My Nature

Paddy and the Rats

Don't tell me how to live my life
Coz you've got one and it's just mine
It's my decision how to use my time

You can't chain a wolf by might
Who was born in full moon's light
He will scream by instinct all the night

So break up your chains
To feel the ancient dance

I say ooooh
I'm one of god's proud creature
I say ooooh
It's me and that's my nature

I say ooooh
I'm one of god's proud creature
I say ooooh
It's me and that's my nature

Live like the wolf on the hill
Sometimes you have to kill
Suppression will teach you not to feel

While the winter fires burn
Cast off you take a turn
Your attitude triumphs over what you've learned

So break up your chains
To feel the ancient dance

I say ooooh
I'm one of god's proud creature
I say ooooh
It's me and that's my nature

I say ooooh
I'm one of god's proud creature
I say ooooh
It's me and that's my nature

I say ooooh
I'm one of god's proud creature
I say ooooh
It's me and that's my nature

I say ooooh
I'm one of god's proud creature
I say ooooh
It's me and that's my nature
