

# Follow Your Way

Pagan's Mind

I slowly fade away  
Leaving the past behind  
From what I can't describe  
Lifted higher

Leaving my chances, my life  
Leaving all my dreams  
Conquering all that I've lost  
Forever!

Mass destruction we're on our way  
Interference, no one should stay

If you try to understand it  
Then you will find it  
Might be time to realize it  
And Follow Your Way

I turn the back of time  
Finding the pictures of life  
I can't recall this dream  
In my mind  
Leaving my senses to tell  
Leaving all my fears  
Challenging all that I've lost  
Forever!

Charge to war across the seven seas  
Crushing power no disbelief

If you try to understand it  
Then you will find it  
Might be time to realize it  
Into the eyes of a storm you collide  
(I turn the back of time)

Even if you understand it  
Now it's time to realize it

If you try to understand it  
Then you will find it  
Now it's time to realize it  
And Follow Your Way

Even if you understand it  
(Always remember)  
Now it's time to realize it  
Into the eyes of a storm you collide

Always remember, forever FREE!
