

# Never Walk Alone

Pagan's Mind

Hear our words  
Like echoes in front of you  
Have faith in us, we're strong in our beliefs

Follow the sign, learning to live with each other  
The faith in us all, our dreams carry on  
The power we hold, we are not alone

(Chorus)

Welcome shadowland you've always been  
True to me  
Black star shining across the seven seas  
Watching me

Keeper of words  
No broken promises  
Give hope to us and read between the lines

Keeping the faith!  
Never again Walk Alone  
Together we stand, our mission at hand  
Still holding on, the spirit's not gone

(Chorus)

Welcome shadowland you've always been  
True to me  
Black star shining across the seven seas  
Watching me, haunting me

(Keyboard Solo by: Ronny Tegner)

I talked to God, tried to understand  
Am I a part of his masterplan?  
Show me the way, 'couse I'm still in doubt  
Give me my faith!  
'Couse I need it now....

Hear my words  
No broken promises  
The truth will be told, and give hope to us all  
Hear our words  
Free, no more emptiness!  
The signs be revealed  
To the entire race!
