

the ladder man is climbing for a little sunlight
it doesn't even matter if i'm faking a good time
as long as you can keep up with the up ahead times
you're gonna be just fine

monkey man is look for a bit of trouble
everybody is living from inside of a bubble
as long as they can keep the people seeing double
gonna be just fine
gonna be just fine

but we know
better than
to believe
a weatherman
get inside
ya gotta stay dry
not to be
the wetter man

catch you when you're sliding for a little daylight
and all you want to do is get away from the bird's eye
you're never gonna keep up with the over ahead times
you know they're up so high
you know they're up so high

but we know
better than
to believe
a weatherman
get inside
ya got stay dry
not to be
the wetter man
now we know
better than
to believe
in a higher man
don't look up
ya gotta feel big
not to see
his upper hand
