

Don't Waste My Time

Pain

Hoh!

How many times do I have to clean up this mess?
You hide away and crawl up in your shell

Take a look around, can you see the word through my eyes?
Take a look around, you better not waste my time!

Can you hear me? No!
Can you see me? No! No!
Do you fear me? No! No!
And do you believe me?

Got to let you go because I can't take the pressure any more
You gotta learn how to keep both feet on the floor

Take a look around, can you see the word through my eyes?
Take a look around, you better not waste my time!
Take a look around, tell me how can you be so blind?
Take a look around, you better not waste my time!

Can you hear me? No!
Can you see me? No! No!
Do you fear me? No! No!
And do you believe me?

Take a look around...
Take...
Take a look around...

Don't waste my time
Take a look around
Don't waste my time
Take a look around

Take a look around, can you see the world through my eyes?
Take a look around, you better not waste my time!
Take a look around, tell me how can you be so blind?
Take a look around, you better not waste my time!

Take a look around, you better not waste my time
Take a look around, you better not waste my time
