

I'm Going In

Pain

You don't believe in what I'm doin'
How more do I have to prove you
I can't give up I've started
I'm not a quitter this is what I do
Can you look in my eyes
Without telling me a bunch of lies
A ll I asked for was the truth
I thought it was me, but now I know it's you
LIAR

I'm going in
Into the fire, I'm burning you out
I'm goin' in
I'm cooling down your skin
Do you like how I treat you
Or should I treat you like a movie star
Something good just went so bad
I got to bring you down

I'm going in
Into the fire, I'm burning you out
I'm goin' in
I'm cooling down your skin
I'm going in
Into the fire, I'm burning you out
I'm goin' in
I'm cooling down your skin
Dream on little liar
Truth will call out your name

I'm going in
Into the fire, I'm burning you out
I'm goin' in
I'm cooling down your skin
I'm going in
Into the fire, I'm burning you out
I'm goin' in
I'm cooling down your skin
