

## Parallel to Ecstasy

Pain

(? I feel----calling--?)  
I can feel the energy  
Feels like I've been up on an experiment on ecstasy  
I feel it kicking in again (?--?)  
Your only motive, your alive you never die

Searching for those sleepless prayers of your life  
Come to find out that you been living a lie  
Realities reflect the shadows in the night  
Did you ever realize how I know,  
Like nowhere riding around with a gun  
Ride around the storm will never stop  
(?---?) when all the lucky ones get by  
Re-entering a pain called life  
Pain is life  
Life is pain
