

# Heaven Up There

Palace

When the night has gone  
And the shadows clear  
When I hear my song  
Will the grave be near?  
See what you want  
But I'm the rising tide  
I'm no force of god  
I'm a thousand lies  
I take what I want  
'Cause I'm the frightening sky  
I'm a selfish man  
Designed to die

But is it heaven up there?  
Is it heaven up there?  
Is it heaven up there?  
'Cause it's hell down here

Believe in existence spent  
To separate us from them  
To know that your blood runs thin  
Is to live with the truth within  
So scrape up the bruise I wear  
Eradicate all my fears  
Prepare me to walk these stairs  
I don't know what my future is  
I don't know what my future is

But is it heaven up there?  
Is it heaven up there?  
Is it heaven up there?  
Is it heaven up there?

Say I've been blind  
For the use of my time  
Wanna be a better man  
On the ground where I stand

There's something out there  
Just know that I've cared  
Do this side by side  
Motion with the tide

Is it heaven up there?  
Is it heaven up there?  
Is it heaven up there?  
'Cause it's hell down here  
Yes it's hell down here

Is this heaven up there?  
I know it's heaven up there  
I know it's heaven up there  
Yes there is heaven up there  
I know there's heaven up there
