

# How Do You Do?

Palaye Royale

Good morning  
How do you do  
I've been up all night looking for you  
So take me where you want to go  
Lucy's in the sky, no no no

You're a fairy  
One of many  
Lets go dancing  
To the alter through the wedding

You're a fairy  
One of many  
Lets go dancing  
Through the rapture and to the wedding

Dripping down the world around  
Lost inside your wedding gown  
What is done out of love will make you feel alright  
I'm leaving today in your morning light

I want to tell you how to lose your mind  
I want to tell you how to coincide  
I want to tell you how to take my hand  
I'm sitting right here saying I want to be your man

Good evening  
Where did you go  
I've been up all night looking for you  
So take me where you want to go  
Lucy's in the sky, no no no no no

You're a fairy  
One of many  
Lets go dancing  
To the alter through the wedding

You're a fairy  
One of many  
Lets go dancing  
Through the rapture and to the wedding

Dripping down the world around  
Lost inside your wedding gown  
What is done out of love will make you feel alright  
I'm leaving today in your morning light

I want to tell you how to lose your mind  
I want to tell you how to coincide  
I want to tell you how to take my hand  
I'm sitting right here saying I want to be your man

Everybody's dancing now  
Everybody's dancing now baby...
