

Celebration!

Pallas

We live we love we laugh we cry
All in the twinkle of an eye
We learn we build and then we're gone
We leave the kids to carry on

We're building a heavenly path - leading out of the dark
Taking us home
We're following a mystical quest for to better our best
Will we ever pass the test?

We know that one day we will win
The keys to creation
We will defeat the test of time
Write our victory 'cross the stars in celebration
We will arrive we will survive
Our dreams will fill the skies
Half way to paradise, half way to paradise

I hear a million voices sing - celebration
Though the dream is far away, one day one day
We're all the same beneath the skin
A one-world nation
Though the dream is far away
Maybe one day

One world, I hear a million voices sing
One voice, celebration
One dream, and though the dream is far away
One day

One world, we're all the same beneath the skin
One voice, a one-world nation
One dream, and though our dreams are far away
One day, one day

Half way to paradise, half way to paradise
