

Fragments Of The Sun

Pallas

We live our lives
From moment to moment
Never knowing
Where we are going

Can you see our light out there
Or are we alone
Lost on this sad little world
We call home

Or can you see our planet burning bright
Like a fragments of the sun

No one want to be alone

We don't want to be alone
Don't leave us stuck here on our own
We burn so brightly for a moment
Then we're gone

We all need something to believe in
We all need somebody to love
And we all need the answers to our questions
And we all need

Hear our song calling out to you
Cross the endless darkness
We will shine through
Hear our song

And if you look out to stars on winter night
Can you believe we're all alone
Just like a sentinel who keeps the beacon flame alight
We'll shine on like a fragment of the sun
