

Monster

Pallas

I hear no music on the radio
Switch on my Tv there's nothing left amuses me
Can't find a movie or a comedy show
No sound of laughter no happy ever after
I see them talking but don't hear what they say
They're all sounding crazy it truly starts to faze me
It's just outrageous their hate appears contagious
They take it the wire, they take it the wire...

I feel a monster... I feel a monster coming
I fear a monster... I hear a monster coming

I see the soldiers as they're boarding their plane
They smile and they're taunting, a bravery that's haunting
Broken mothers fear they come home again
Wrapped up in a flag, huh

Tin pot dictators chase their own atom bomb
While this planet is melting and no one cares for helping
We argue over nothing my head is really hurting
They take it to the wire, take it the to wire...

I feel a monster... I feel a monster coming
I fear a monster... I hear a monster coming

I am just an ordinary guy
The world's gone crazy I couldn't tell you why
I hear no music just distant angry voices
Fear in the air, panic everywhere
It tears my soul apart, the hatred and lies
I see my friends, despair in their eyes
Something tells me the end has begun
A monster's coming there's no place to run

Run

I feel a monster... I feel a monster coming
I hear a monster... I fear a monster's coming
I feel a monster... I fear a monster coming
I see a monster... I see a monster coming.....
