

Better Friends

Pam Tillis

I wish that we
Were better friends
Just like we were all over again
And I wish that we
Could have one more try
Cause I like the world with you by my side

Words that were spoken
They left a mark
I wish we could go back
Back to the start
I'd undo a moment
I'd cancel a day
So you wouldn't hear
What I wouldn't say

How can we get back
To the making amends
How can we get back
To the happiness
Are we the pages
Of a book near the end
How can we get back
To the happiness

I wish that we
Were better friends
Just like we were
All over again
I wish that we
Could have one more chance
Cause I like the world
With you by my side

When you saw me angry
What you didn't see
Was that I was afraid
I felt incomplete
Trying to make good
In these humbling times
Can make you so weary
Impatient unkind

How can we get back
To the making amends
How can we get back
To the happiness
Are we the pages
Of a book near the end
How can we get
