

Last Night's Make Up

Pam Tillis

I gotta find my keys
Gotta try to slip out like a shadow
Put my shoes on in the street
Before the sunlight ever finds your window

Before you're asking me to stay
And saying things you think you're supposed to say

[R:]

Here I am again in last night's make up
Messing up my skin messing up my heart
If I could wash you off like last night's make up
Looking in the mirror wouldn't be so hard

I could say that I was drunk
But the truth is I was stone cold sober
I could say you led me on
But it don't mean you love me when you say come over

And what I thought was waterproof
Has left another mark on the pillow next to you

[R]

What was beautiful and fun
Sure looks sad in the sun

[R]
