

## The Scheme of Things

Pam Tillis

Don't you worry 'bout me baby  
This too shall pass  
You know I've been down this road before  
But I know lonely won't last  
Just a couple hundred tear drops  
And I'll be good as free  
Baby what's another tear drop  
In the scheme of things

Only one good thing about goodbye  
There's nothing more to say  
Heaven knows what kind of lies you'd tell  
If you thought you had to stay  
So I swear that I'm not hurting  
Just leave the lying up to me  
Tell me what's a little foolish pride  
In the scheme of things

So kiss me once like it ain't over  
Oh turn the light out as you leave  
What's one more broken heart now darling  
In the scheme of things  
What's one more broken heart now baby  
In the scheme of things
