

Come On And Do It

Pandora

Come on and do it
You make me feel so good
Ain't nothin' to it
When rythm takes control
Come on and do it
You make me feel so good
Ain't nothin' to it
When rythm takes control

I'm b-b-b-back in town
Excuse me babe if I'm too proud
But what I gotta do is to go for it
Gotta make you feel like you're in to it
Bang bang bang hear the drums get slammed
Just shake it to the jam
There won't be no stop
Better get it to the top of the rock a-yeah

Come on and do it
You make me feel so good
Ain't nothin' to it
When rythm takes control
Come on and do it
You make me feel so good
Ain't nothin' to it
When rythm takes control

Here we go at one-thirty-eight
High energy so don't come late
Just follow me and the words I speak
Listen up listen up I've come to preach
And teach ya to be a part of the motion
Get ready wanna give you devotion
Givin' you more than you can take
Get down to this funky break

Come on and do it
You make me feel so good
Ain't nothin' to it
When rythm takes control
Come on and do it
You make me feel so good
Ain't nothin' to it
When rythm takes control
