

# Beneath The Gate Of The Sempiternal Bliss

Panychida

Morana, guide of all  
the gone ones...  
One step closer to the bloody-fall  
she every new day stands.

Enchantress! as rising  
in the grey fog of the bones,  
cast ancient spell of foreverness  
wields key in palm, turnkey princess!

„We can see.. dreamlike land  
of our forefather's dreams!  
We can smell flowering meadows,  
sound of the purling creeks!“

„Follow my steps,  
Watch my fleshless lips  
Listen to my words,  
fly in my deadly wind...“

„Insecurity, dying hope...  
Dark eternity, there we stop.  
Land in the paradise gate,  
this is my hand and I hold your fate.“

There are no clouds,  
beneath the ever-blue sky..  
Eternal shining bow,  
is smoothing the skin of the ground.

„Ssss...come and watch, step by step..  
Respect predominant sacred peace..  
Beware the effect of the evil stain..  
'Pageant of gods' soon you will see..

Upon the hill in the heaven stand,  
feel free to cognize heathenish calm..  
This is the rule and you've been sent  
To the home of your ancestral elders!“
