

Love Bombing

Panychida

Desire, desire, you will be ours
Your thoughts will be reformed according to ours
The secret doctrine growing so strong
We never give up, we're those who win

Blazing fire - living from the weak
Sacred voices shape what you feel

Charismatic spell we put on you
Soon you won't recognize
What's a lie and what is true
Soon you won't recognize
What's a lie and what is true

Blind our seeds are, grown up with attention and good care
Building up human fences around personal hell - accusation
Accusation denied, denial of free will - aberration
Aberration controlled, feeble minded low-
achiever absorbing our spell

Blazing fire - living from the weak
Sacred voices shape what you feel

Desired, desired, we praise you with grace,
Overwhelming love and smile on our face
