

Look at me who's your daddy now  
Bringing your candy satisfaction guaranteed  
There's war that's what we men are built for  
I am entertainment I bring the battle to your door

Old machines marching through your sweets  
Sound of steel tearing through your body  
How does it feel now that I am in control?  
How does it feel now that I am you?

I never wanted  
I never needed  
Anything like this before x2

Look at me who's your daddy now  
Bringing your candy satisfaction guaranteed  
There's war that's what we men are built for  
I am entertainment I bring the battle to your door

I love your guns, uhuh  
Well I need the freedom I'm free but I'm still owned  
I love your guns, uhuh, that's right  
Black they shoot whites they just sell you

We're the kings of filth and fire of gore  
Assassination of free will  
Off to a camp fleeing a dirty war

I never wanted  
I never needed  
Anything like this before  
I never wanted  
I never needed  
Anything like this before  
I never wanted

Anything like this before
