Binge

Papa Roach

You better put that down You better put that down All I need is a bottle And I don't need no friends, no Wallow in my pain I swallow as I pretend To act like I'm happy When I drink till no end, no I'm losing all my friends I'm losing in the end She says Behave little boy, you better sit back down Till you hold your ground It's your turn to learn to fight You better sit back down Till you hold your ground When I'm sober life bores me So I get drunk again Yeah! I'm losing all my friends I'm losing in the end She says Behave little boy You better sit back down Till you hold your ground It's your turn to learn to fight You better sit back down Till you hold your ground You better sit back down You better put that down Put the bottle down I am on a binge I am on a binge I wish things would change Wish they'd rearrange I am on a binge I wish things would change Wish they'd rearrange I am on a binge I'm on a binge!
