

Done with You

Papa Roach

I count the days that we have spent apart
I've got a bad liver and a broken heart
There's no salvation in the comfort of you (comfort of you)
And I finally realize your tearing me apart

So help me, save me,
Tell me that the end is near
Help me, save me
Tell me that the end is here
I am done with you

You've made my life completely miserable
You drove me to the edge, you've caused me all this pain
But I always loved you cause your oh, so special
(oh so special)
I'm broken and I'm alone and I cannot maintain

So help me, save me,
Tell me that the end is near
Help me, save me
Tell me that the end is here
I am done with you

Done with you (I am done with you)

I count the days that we have spent apart
I've got a bad liver and a broken heart

Help me, save me,
Tell me that the end is near
Help me. save me
Tell me that the end is here

I am done with you
Because you and me are through
You couldn't help me, you couldn't save me
Now I know the end is here
I am done with you
