

# Gravity

Papa Roach

I was there on the day truth died  
Blood on my hands, thrown them up in the sky  
I was a number one sinner no less  
My life was a lie and my wish was a death  
I fell in love with the ways of the world  
Money and the fame, the booze and the girls  
But I couldn't stay faithful if I tried  
I'd turn into a devil you could see it in my eyes  
I blacked out, told you everything I ever did  
I couldn't take all the lies I was living with  
I broke your heart, broke up the next day  
My bags outside yelling get the hell away  
You're not a husband, not a father just a pig  
And you can never change all the things that you did  
That's when I knew it, it wouldn't last  
You'll never get away when you're running from the past

And we fly...  
Fly into outer space  
I float away but you're my gravity  
Die to love another day  
We rise again and lose our gravity

I'm a broken man, I'm full of sin  
I'm sick of all this hell that I'm livin' in  
I can't escape it - this is how it feels  
When you try to numb the pain with a thousand pills  
You tore me down and wished that I was dead  
Said you wanna sleep around in another bed  
But when I push you away, you only pull me closer  
It's only over when we both wanna say it's over  
I gotta change - this is not who I am  
I wanna start over, wanna try this again  
You're everything I need, everything I'm not  
So pull the trigger give me one more shot

And we fly...  
Fly into outer space  
I float away but you're my gravity  
Die to love another day  
We rise again and lose our gravity

You love me You hate me  
You kiss me You break me  
You lifted me up just to watch as you dropped me  
You promised me - looked me straight in the eyes  
No matter what you say - I don't know the truth from the lies  
I held you up like I always do  
I forgave you for your sins and I carried you through  
No matter how hard we fall  
We always knew  
You will bleed for me, and I will bleed for you

And we fly...  
Fly into outer space  
I float away but you're my gravity  
Die to love another day

We rise again and lose our gravity

And we fly...

Fly into outer space

I float away but you're my gravity

Die to love another day

We rise again and lose our gravity

And we fly...

Fly into outer space

I float away but you're my gravity

Die to love another day

We rise again and lose our gravity

Baby we can float away
