

Had Enough

Papa Roach

Turn the channel on the TV another boy shot tonight
I can't believe what I am seein' a body bag a mother cries
It seems like this is never ending I've had enough so I decide
The time has come for me to face it I can't refuse the war inside

Cause we have had enough all the violence has touched
Every part of our lives our innocence is gone tonight

I don't know if I could hide it I know the truth it's only lies
The president will deny it the body count a steady rise
In my head there is a riot we change the world no one dies
The time has come for us to fight it we can't refuse the war inside

Cause we have had enough all the violence has touched
Every part of our lives our innocence is gone tonight

Cause we have had enough all the violence has touched
Every part of our lives our innocence is gone tonight

I know that you can change the future
I know that we can make it happen
In my head there is a riot and I don't think that I can't fight it

Cause we have had enough all the violence has touched
Every part of our lives our innocence is gone tonight

We have had enough hello
