Take Me

Papa Roach

Take me
and let me in
don't break me
and shut me out

So take me
and let me in
don't break me
and shut me out

I lit my pain on fire
and I watched it all burn down
now I'm dancing in the ashes
and there is no one else around
cause I wanna be part of something
this is just a story of a broken soul

And as days go by my heart grows cold
I can't seem to let this all pass me by

So take me
and let me in
don't break me
and shut me out

I'm burning in the heavens
and i'm drowning in a hell
and my soul was in a coma
and none of my friends can tell
that I'm reaching out and getting nothing
this is just a story of a broken soul

And as days go by my heart grows cold
I can't seem to let this all pass me by

So take me
and let me in
don't break me
and shut me out

So take me
and let me in
don't break me
and shut me out

Don't shut me out...

Does anyone around me feel the same?
Put your fist up and vent your pain.
Does anyone around me feel the same?
Put your fist up and vent your pain!
(2x)

And as days go by my heart grows cold
I can't seem to let this all pass me by

So take me

```
and let me in
don't break me
and shut me out

So take me
and let me in
don't break me
and shut me out

And as days go by my heart grows cold
I can't seem to let this all pass me by

Take me...
don't break me...
```
