

# Wish You Never Met Me

Papa Roach

This is the moment that I feared the most  
Helplessly watching as we turn to ghosts  
Is it over  
Tell me if it's over  
This is the hardest thing I've ever done  
Hopelessly waiting as you turn and run  
Is it over  
Is it really over

I promised you that I would change  
Then I broke it in a million ways  
I alone take the blame  
While you take everything  
Why can't we start this over  
What have we done to us  
You say that you need closure  
Are you just giving up on us

I refuse to fade away  
As you try to forget me  
Take my heart and walk away  
Like you wish you never met me

Now that I know that you're not on my side  
What good is love if it's always denied  
Is it over  
Is it really over

I swore to God that I could change  
But I let you down a million ways  
I alone take the blame  
While you take everything  
Why can't we start this over  
What have we done to us  
You say that you need closure  
Are you just giving up on us

I refuse to fade away  
As you try to forget me  
Take my heart and walk away  
Like you wish you never met me

Like you wish you never met me  
Like you wish you never met me  
Like you wish you never met me  
Do you wish you never met me

Why can't we start this over  
What have we done to us  
You say that you need closure  
Are you just giving up

Why can't we start this over  
What have we done to us  
You say that you need closure  
Are you just giving up us

I refuse to fade away  
As you try to forget me  
Take my heart and walk away  
Like you wish you never met me

I refuse to fade away  
As you try to forget me  
Take my heart and walk away  
Like you wish you never met me

Like you wish you never met me  
Like you wish you never met me  
Like you wish you never met me  
Do you wish you never met me
