

# The Sovereign

Paprika Korps

Blood runs thick and blood runs fast  
So is the information, so is the information  
I accept the humble tribute  
I am one of the few, one of the few  
Spin the wheels of my extensions  
I Keep the wires cool, keep the wires cool  
Keep the good old fire burning  
I keep providing fuel, keep providing fuel  
There's no way to step backwards  
from the place I stand, from the place I stand  
I say keep the fire burning  
Satisfy the sovereign, please the sovereign

The sovereigns right of sympathy  
the nobles luxury, the nobles luxury  
full of compassion and gratitude  
I'll take pity on you, do your duty by me

With the steam and combustiou,  
with the oil and rock, with the oil and rock  
keep the good old fire burning,  
I keep the mineshafts busy to replenisch the stock

There's no way to step backwards  
from the place I stand, from the place I stand  
I keep the fire burning  
Satisfy the sovereign, please the sovereign

All dimensions overflowed, ready for ascending higher  
With a hammer and a pick and drill and high tension wires,  
with the safety valves, dry steam and fumes within,  
support your support your sovereign, keep the fire burning

There's no way to step backwards  
from the place I stand, from the place I stand  
I keep the fire burning  
Satisfy the sovereign, please the sovereign

(babbles something)
