

# Strange World

## Parachute

Let me up  
My world is spinning  
And it just won't stop  
I'm so deep in it  
And I've had enough  
I just can't do it again

But then you drop that bomb  
All I can hear is  
All these car alarms  
And then I realize  
That I've gone too far  
And now I'm slipping away, hey, hey, hey

So keep me hanging on  
Hold me down  
And stop me when I fall  
Love me when it makes no sense at all  
Even when I'm gone  
Keep me hanging on  
You've got me living in a strange world, strange world, strange world  
I'm living in a strange world, strange world, strange world

Shadows swim  
I hear them laughing  
At the state I'm in  
Their eyes keep staring  
And they just won't quit  
And they just whisper your name

Oh but then I close my eyes  
I never sleep through  
All these endless nights  
And when I dream  
It's only black and white  
And I'm just slipping away, hey, hey, hey

So keep me hanging on  
Hold me down  
And stop me when I fall  
Love me when it makes no sense at all  
Even when I'm gone  
Keep me hanging on

Crazy  
Everybody thinks that I am  
Crazy  
Everybody thinks I can't slow down  
Slow down

Keep me hanging on  
Love me when it makes no sense at all

So keep me hanging on  
Hold me down  
And stop me when I fall  
Love me when it makes no sense at all

Even when I'm gone  
Keep me hanging on  
You've got me living in a strange world, strange world, strange world  
I'm living in a strange world, strange world, strange world

To love me when it makes no sense at all  
Even when I'm gone  
Keep me hanging on  
You've got me living in a strange world, strange world, strange world  
I'm living in a strange world, strange world, strange world
