

Next To Me

Paradise Fears

Oh, we stumble home
After closing time you told me
That your soul was from the 90's
That's when I knew
So I follow on
In the dark I only hear you
Do what I can to be near you
Next to you

Oh, collective souls
When you come to me I whisper
When you call to me I listen to your bones
These little homes
They wrote symphonies just for us
Wrote the lyrics to this chorus
They said

Throw your world down and come into me
Stay next to me, right next to me
All you've got is everything I need
Stay next to me, right next to me, right next to

Oh, collective souls
But these months they pass like minutes
When you're far away and drifting on your own
I know you feel alone
I know you're scared that fate won't find you
Let the winds of change just guide you
They'll sing

Throw your world down and come into me
Stay next to me, right next to me
All you've got is everything I need
Stay next to me, right next to me, right next to

da da da da da da da da da
la da da da da da da da da
la da da da da da da da da [X7]

Throw your world down and come into me
Stay next to me, right next to me
All you've got is everything I need
Stay next to me, right next to me, right next to me
