

From a vision long ago to world's nutrition now
A perfect secret formula, a giant big cash cow
Billions of hungry mouths - they all need to be fed
A taste made from the living for the living dead

Your name is on a slaughter's list
A highlight blood red mark
All connections cut
A journey to the dark

Abattoir - Transforming human meat
Abattoir - Create the perfect wheat
Locked up and crammed - trained and jammed
Abattoir - destination for the damned

Watch the data on your wrist - time is up now
The order's out, they're on your back, getting you somehow
Damn the stupid body cult and all your healthy life
All in vain, to be erased - no chance to survive

Blood is dripping in a glass
This meal is best served warm
Life becomes an evil mass
Slicing flesh in form
