

Where the Lines Overlap

Paramore

1. Give me attention
I need it now
Too much distance
To measure it out, out loud
Tracing patterns across a personal map
And making pictures where the lines overlap
Where the lines overlap

R: No one is as lucky as us
We're not at the end
But oh, we already won, no no
No one is as lucky as us
Is as lucky as us

2. Call me over
Tell me how you got so far
And never making a single sound
I'm not used to it
But I can learn
There's nothing to it
I've never been happier
Never been happier

R:

Now I've got a feeling if I sang this loud enough
You would sing it back to me
I've got a feeling if I sang this loud enough
You would sing it back to me

I've got a feeling (I've got a feeling)
That you would sing it back to me
You would sing it back to me

R:
