

## Scene 14

Park

14 good-byes keeps the  
night alive exit standing the  
music's ending from on and  
on a storyboard sending  
sings in key asleep I'm  
watching from that window  
Come up from the ground I  
need to notice that your not  
still around 14 sad tries  
every other night it leaves  
demanding takes me off my  
feet throwing away the best  
day in our heads and if I  
could just think I remember  
you and me at 3rd street  
drinking over coffee bout  
the people we met the lives  
that we met and somehow  
that they changed and  
we've changed
