

# Children of Production

Parliament

We are children of production  
Produced in conjunction  
With the urgency of our Dr Funkenstein  
In his widsom he forenotioned  
The shortcomings of your condition  
So, we the Clones, were designed  
We're gonna blow the cobwebs out your mind

We're a flawless testimony  
To the attainment of the P.Funk  
Endowed with conceivment of true groove  
We are deeper than abortion  
Deeper than the notion  
That the world was flat when it was round  
We're gonna blow the cobwebs out your mind (2x)

We're a biological timebomb  
Exploding in a timezone  
And almost everyone is out of time

We are children of production  
Produced in conjunction  
With the urgency of our Dr Funkenstein  
In his widsom he forenotioned  
The shortcomings of your condition  
So, we the Clones, were designed  
We're gonna blow the cobwebs out your mind

We are deeper than abortion  
Deeper than the notion  
That the world was flat when it was round  
We're gonna blow the cobwebs out your mind (2x)
