

## Good Woman, Good Truck, Good Life

Parry Gripp

A workin' man, he don't need a lot  
But he treasures those few things that he's got  
It's the same in the good times  
It's the same through the strife  
Good woman, good truck, good life

Well, it's cold and it's lonely out on the road  
But a man's got to haul that heavy load  
From the day he is born 'til the day that he dies  
Good woman, good truck, good life  
Good woman, good truck, good life
