

## West District

PARTYNEXTDOOR

I try to play numb to shit like this  
But I'm cool 'cause this isn't love  
We all have obsessions  
Oh, sometimes, sometimes

'Cause when I'm on the road I be on a roll  
I mean you can hold me down, but I'm not to hold  
Riding with my niggas, we the ones they chose  
Running through the city like, "I know you know"  
Yeah, my name is PARTY and the trigger finger function  
Silly nigga might lose his life on assumption  
Young nigga from the city  
Ain't shit pretty, but my bitch and my mama  
Anyone can get the drama, even the Dalai Lama  
Strippers in the club and my cup's half empty  
Riding with my niggas 'cause my niggas understand me  
Still on plan A, pussy niggas on plan B  
Just a young rich nigga, you don't have to understand me forever  
[x2]

Forever  
Baby, can you hear that?  
This story that you gonna make tonight  
You gone tell that shit for life  
I don't want it just tonight, I want forever  
I don't only want that shit tonight, I want that shit forever  
You can make the story better, make it last forever  
I ain't only wanna fuck tonight, baby, it's whatever  
Tell me baby, if I fuck you right, can I fuck forever?  
Tell me, should a real nigga feel this way?  
Tell me, doesn't anyone feel this way?  
Tell me, doesn't anyone feel this way?  
Tell me, should a real nigga feel this way?

I've been already gone, baby  
Smoking and I'm drinking strong, baby  
Even though I'm living long, baby

'Cause niggas only singing songs, baby  
I'm true to you, I'm true to these words  
Baby, getting through to you  
How I'm getting through 'cause I'm concerned, baby  
Is it true to you? How's it feel with me?  
This story that you gonna make tonight  
You gone tell that shit for life  
I don't want it just tonight, I want forever

Strippers in the club and my cup's half empty  
You know I'm riding with my niggas 'cause my niggas understand me  
You know I'm still on plan A, pussy niggas on plan B  
And I'm just a young rich nigga, you don't have to understand me forever
