

Stay With Me

Pastora Soler

Now skies are crying over me
I tried to say just anything
Just anything so you won't go
I know you think it is too late
I see that look upon your face
But please hold on be strong for me
I still believe
You can show me heaven
You can show me how to speak love

Fight the shadows light the rain
Stay with me for one more day
You can show me heaven
You can show me heaven
Let the sunshine through the rain

I never meant to lose your heart
So when I see that's all I have
I fall apart
You can show me heaven
You can show me how to speak love

Fight the shadows light the rain
Stay with me for one more day
You can show me heaven
You can show me heaven
Let the sunshine through the rain

And if we make it through the light
I know we can make it still shine

(Fight the shadows light the rain)
Light it up, light it up my way
(Stay with me for one more day)
My love
You can show me heaven
You can show me heaven
Let the sunshine through the rain

And if we make it through the light
I know we can make it still shine
You can show me heaven
You can show me heaven
Let the sunshine through the rain
