

One Thing

Pat Green

I used to be so down and out
I used to be so blue
Now the only thing I talk about
And the only thing I do

Is stand around like a school kid
Just off the merry-go-round
And if I'm dizzy it's because I'm headed
To the one good thing I'd found

Yeah the one thing is good as gold
I'm nothing without you too hold
Yeah the one thing I know in this world
Is that I need you to be my girl

I got so good at hiding
I couldn't find myself
Yeah but girl you got me smiling
Feeling like somebody else

I guess you changed my makeup
I ain't the same sad clown
Yeah ever since you showed up
This ain't the same sad town

Yeah the one thing is good as gold
I'm nothing without you too hold
Yeah the one thing I know in this world
Is that I need you to be my girl

One thing is good as gold
I'm nothing without you too hold
Yeah the one thing I know in this world
Is that I need you to be my girl

You're the one thing
You're the one thing
You're the one thing
