

# Hieroglyphs On Cement Walls

Pathology

As the cities burn, the streets become mortuaries  
Buildings decay  
The few with knowledge are hidden  
Fires burn in underground structures  
Where they worship those that brought this regression to mankind  
Depictions of the god's decisions  
Abductions and lethal incisions  
Cave art of the present in the ruined shell of a parking garage  
Makeshift cult church as the cities burn  
Hieroglyphs on cement walls where they worship the end
