

Necrotic Prayers for Genocide

Pathology

Bleeding causing your sin
Bleeding prayers of an undying hatred
bleeding to your dead god these offerings
bleeding open wounds of sacrilege
bleeding on sores created by their ignorance
Arise and murder all my enemies
Saints of murder hear my prayers
for they are impure and deceased
Saints of macabre and repulsive order
Infest this world with your divine atrocity
Inherit the plague on which you dwell
darkened visions of a world succumb to despair
unholy paradox of blasphemy
bleeding into this void a stench
the essence of butchery, prepare the furnaces
Genocide to all that exists
indulgence within horror I bathe
in the blood of the decaying enemies
begging to hear my forgiveness
only when all is deceased
Saints of infamy hear my decree
Arise and suffocate all my enemies
for they are impure and infected
Saints of macabre and repulsive order
Infest this world with your divine atrocity
mystical plane of evil incarnate me within
bleeding prayers of an undying hatred
bleeding offerings to your dead god
bleeding open wounds of sacrilege
bleeding on sores created by ignorance bleeding...
