

## Predation

### Pathology

Animalistic celebration of violence  
As the weak are purged from the Earth  
At the top of the food chain  
A mob of modern day cavemen headhunting for sport  
As the weak are purged from the Earth  
The air is choked from your lungs  
You're not the top of the food chain  
Prey upon the weak  
Bringers of the fall of man  
Once civility is lost, we prey upon each other  
No longer safe in this new world  
Become beast fodder, rampaging, plundering all  
Primitive small arms warfare, marching on the enemy  
Are commonplace in this new Hell
