

# High In Me

Patrice Rushen

Don't ever say goodnight  
Thinking that you haven't satisfied  
You're the only one that brings to light  
All the miracles I have inside

You make me feel the high, high in me  
You fill me up with my own destiny  
I feel the high, high in me  
Love is like I thought it could always be  
So many times before  
I was too afraid to open any door  
But then you come and made me sure  
Of a love that I could live my life for

You make me feel the high, high in me  
You fill me up with my own destiny  
I feel the high, high in me  
Love is like I thought it could always be

You fill me up with tender love  
And you make me smile  
It at times I'm insecure, my love don't doubt  
Cause you're the only one who sees it all  
The things that I could ever be

My heart is open and I cannot hide  
Don't you see I'm living in paradise  
You're a miracle, you brought my love to life  
Keep me in your arms where I'm satisfied

Oh I feel the high, high in me  
You fill me up with my own destiny  
I feel the high, high in me  
Love is like I thought it could always be
