

He Don't Answer

Patrice

You say I've done things when these things I've done not done
You think you hit the nail on the head you think you're spot on
You think you got all the clues god knows you got none
Pointing at me but here is the part you've got wrong
See this really ain't about me it's about you
I don't have no doubts it's you who doubts you
Don't owe you nothing I can do without you
They haven't built the man or woman that I bow to
Chorus: (2x)

Answer to no man (He don't answer to no man)
And I don't follow no fashion (And he don't follow no fashion)
Do whatever I want whenever I want (Whatever he wants whenever he wants)
And I don't answer to no one (And he don't answer to no one)
The stones they fling can't touch me coz I'm high up in the sky
There ain't no things to cut coz I'm no puppet not no kito
There is a certain type ah question' that just won't get no reply
Coz I don't justify and I don't answer to no guy
My woman try fi test me and ask me what I've done last night
Mi done tell her seh mi serious so deh so she cross the line
Scientist come test me and ask me if my rules apply
After mi break it down to them you shoulda seen their eye
I don't answer (He don't answer to no man)
And I don't follow (And he don't follow no fashion)
Do whatever I want (Whatever he wants whenever he wants)
And I don't follow (And he don't answer to no one)
Chorus:

I don't answer to no man (He don't answer to no man)
And I don't follow no fashion (And he don't follow no fashion)
Do whatever I want whenever I want (Whatever he wants whenever he wants)
And I don't answer to no one (And he don't answer to no one)
And I don't answer ...
Philosopher come test me and talk 'bout matter over mind
The things I lay out to them
Come in like some answer them can't find
Preacher man come tell me 'bout why the sun ah shine
After mi done with him him want fi change him paradise
Gangster come fi test me and show me the barrel of the nine
But they haven't built a man strong enough to take what's mine
Mi name badman williams nobadda take me for no boy
Mi born to lead and I don't follow I don't bow don't ask me why
I don't answer (He don't answer to no man)
And I don't follow (And he don't follow no fashion)
Do whatever I want (Whatever he wants whenever he wants)
And I don't follow (And he don't answer to no one)
Chorus (2x)

I don't answer to no man
And I don't follow no fashion
Do whatever I want whenever I want
And I don't follow, follow, follow ...
