

## Melody Noir

Patrick Watson

Tell me where the wind is blowing 'cause that's where the music  
's going

You are my big dark blue and I want to swim all around you  
You are the sweetest melody I never sung

I feel like I know you but you're just a ghost to me  
And when I sit beside your shadow somehow it comforts me  
You are the sweetest melody I never sung

You are the island of love my remedy to rescue me  
You are a breeze of a song that carries me  
You are the sweetest melody I never sung

La  
La-la-la-la-la-la  
La-la-la-la-la

La  
La-la-la-la-la-la  
La-la-la

La-la

I've got a hole the size of your touch that fits in your arms t  
his much  
And when I try to fill it up the hole gets bigger every time  
You are the sweetest melody I never sung  
You are the sweetest melody I never sung

You are my island of love, my remedy to rescue me  
You are a breeze of a song that carries me  
You are the sweetest melody I never sung

Canta canta mi luna mi luna llena  
Esta melodia que es el abismo adentro de mi  
El abismo adentro de mi  
Mi luna mi luna llena
