

## Places You Will Go

Patrick Watson

You could have stepped to the top of the water poles  
Into the wells of the shimmer love  
She's gonna drive you to the shores  
But you don't know who you are  
I tell her take your time now  
You're gonna take, take your time

Walking through the city of too many roads  
When I don't know how to talk  
Swallow all the pretty lights  
Gettin' off, this kinda feels right  
Places you will go

It can be shiny, tiny, stranger wandering  
And if you don't wanna ride  
It's gonna get a little lonely, that's right  
The only thing you need to feel  
Should have eyes on the melody

Bla, bla, bla-bla, bla  
Been talking, sorta talking but you don't wanna hear  
It's one of the seasons, let me try, try [?]  
Get out, get out the world you came  
Places you will go

All the places you can go  
It's so simple now  
Feels some things I do wrong  
[?]  
Put your head down on my shoulder  
I can turn, we can turn to the places we know  
I can turn, we can turn to the places we know  
Turn in time and find some

It's so simple right now  
All the places  
[?] through the ground  
Places you-ooh-ooh
